

WristOx₂[®] Model 3150

(T)

Wrist-worn Pulse Oximeter

The WristOx₂, Model 3150 Pulse Oximeter is Unmatched for Performance and Value!

Engineered with Nonin Medical's proven PureSAT® SpO₂ technology, the WristOx₂, Model 3150 delivers highly accurate readings in the widest range of patient populations and settings. The WristOx₂, Model 3150 is deal for applications including ambulatory monitoring, remote wireless monitoring and overnight studies—providing the versatility and reliability that clinicians expect from Nonin. The most advanced wrist-worn pulse oximeter available, the WristOx₂, Model 3150 features improved performance and reporting capabilities, including enhanced connectivity and increased memory storage. A new ergonomic design and Bluetooth® wireless technology eliminate the inconvenience of bulky cables and provide patients with increased comfort and independence—making this pulse oximeter ideal for ambulatory monitoring.

WristOx₂[®], Model 3150

Product Highlights

- Easy to Use Simply put your finger in the sensor
- Design Updates Small size wears like a watch with large display screen and enhanced sensor connector design
- Software Support Advanced features such as 6 Minute Walk Test (6MWT) or overnight sleep reporting available when used with nVISION[®] data management software
- Convenient Data Transfer Transfer data securely to nVISION[®] via Bluetooth wireless or USB connection
- WristOx Sensor Line The WristOx₂ sensors are exclusively designed for use with the WristOx₂, Model 3150

Added Benefits

Versatility – The WristOx₂, Model 3150 is an ideal choice for multiple applications where small, portable oximetry is needed

Powerful Battery – 48 hours of battery life (non-Bluetooth), 24 hours with continuous Bluetooth using two AAA alkaline batteries

Simple Data Verification – The new Memory Volume Indicator Mode provides verification of recorded data during oxygen qualification studies

Enhanced Memory – 1,080 hours of non-volatile memory at a four-second sampling rate with additional high resolution variable sampling options of one or two seconds

Nonin Quality and Support – Rugged durability and industry-leading 3-year warranty

Proven PureSAT® Pulse Oximetry Technology – Fast and accurate response for capturing events in challenging conditions such as motion and low perfusion

Select Your Options

- 8000J-WO2 Adult Flex Sensor, 8000AA-WO2 Clip Sensor, 8000SS-WO2, 8000SM-WO2 and 8000SL-WO2 (small, medium, large) Soft Sensors
- 3150WB Wristband
- 3150I Adapter cable (for compatibility with all Nonin PureLight[®] sensors)

3150SC – PC USB interface cable
WristOxCC – WristOx, carrying case

nVISION data management software

Available in Two Configurations

 $WristOx_2$ (3150) Single unit or Starter Kit (3150SK) value bundle with nVISION software, PC USB interface cable and extra wrist straps. System comes with a 8000SM-WO2 Sensor.
